LOGNOTE -- Chief, Operations Group, 6 June 1985

1. [] Following from this morning's staff meeting:

25X1

25X1

- [] has formed a group to look into secretarial payscales. There is a rep. from each directorate. Sounds like a long and windy process.

- Question was raised about the asbestos problem in Mbabane. I said we were sending samples to OSHA. ED should update me on this.

- []

25X1

- DDS&T has been talking with D/Pers about using outside consulting firms to classify positions rather than PMCD. A list of five companies has been proposed to D/Pers. This is largely to improve engineering grades.

- D/FBIS would prefer not to have a reception or party for the summer only's. Last couple receptions were very tepid. Groups, or better yet, divisions should plan some sort of get-together for their summer only's. OTE apparently is taking theirs to Georgetown for beer and pizza.

- []

25X1

- SDS reports they will meet the deadline (17 June) for their final recommendation on the Modernization Design.

25X1

SECRET

SECRET

- I reported on the Baker PCS delay, adding the AFP world service in the Wire, the final hookup of VCVC-2 and the Philippines initiative.
